

360° Solutions

PORTACOM A NEW ZEALAND ICON

When you need fast, flexible and reliable solutions for your temporary building needs, Portacom has the solution, network and reputation to deliver it.

Since 1978, Portacom has been developing, manufacturing and hiring temporary buildings specifically designed and built to the needs of New Zealand schools, building sites, major infrastructure development commercial applications and industrial uses.

With the largest fleet and a nation-wide footprint, you are never far from a Portacom branch or manufacturing facility.

We are Kiwis employing Kiwis to develop homegrown innovation to drive our country forward.

ADDING VALUE TO YOU

We know that it is not just the temporary building our customers need. It is often all the support services and furniture to get the site running and keep it running.

Now we are offering our 360° Solutions. With one supplier, you can now arrange furniture for your dining halls, cleaning services, air conditioning or heating, storage, toilets including waste tanks and pump out.

Let us be your temporary building specialists so you can focus on your day-to-day business.

SUSTAINABILITY

As a proud New Zealand company, we are committed to the best practices for our environment, society and team with strong targets for waste, emission and water reduction. Portacom is a Toitu Enviromark Diamond accredited business.

Portacom adheres to the highest ethical procurement strategies selecting suppliers who value environment and social development as we do.

By selecting Portacom as your temporary building supplier, you can do so with confidence you have selected an ethical partner.

GLOBAL STRENGTH

Portacom is part of the Modulaire Group of companies. This group includes Algeco in Europe and Asia, Ausco Modular and Net Modular in Australia and, of course, Portacom and Interlink Modular in New Zealand.

The group's focus is solely on providing the best modular building solutions for schools, construction, resources, infrastructure development, health and remote locations.

Through this association, Portacom brings innovation, stability and sustainability to our customers.
